

Vivekanand Dubey

Full Stack Java Developer | Spring Boot | React | REST APIs | MySQL

vd123754@gmail.com | +91 7706892928 | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

EDUCATION

A.P.J Abdul Kalam Technical University

2022-2026

BN College of Engineering and Technology

- Bachelor of Technology in Computer Science, SGPA: 8.71/10 (upto 7th sem)

Central Board of Secondary Education

2017-2019

Deoria Senior Secondary School

- Intermediate (10+2), Percentage: 77.4%

EXPERIENCE

SoftPro India Pvt. Ltd. (Intern)

Sep 2025 - Mar 2026

React.js, Java, RESTful APIs

- Developed backend modules using Spring Boot, JPA, and MySQL, improving API performance and efficiency.
- Designed RESTful APIs for Thymeleaf (SSR) and React.js (SPA) enabling seamless frontend-backend integration.
- Implemented JWT-based authentication using Spring Security for secure session management.
- Built scalable backend services using layered architecture (ControllerServiceRepository).
- Optimized database interactions and API response handling for improved performance.

PROJECTS

QR Ticket Application | React, Spring Boot, MySQL | [GitHub](#)

Jan 2026- Present

- Built a full-stack QR-based ticketing system for secure ticket generation and validation.
- Implemented JWT authentication and RBAC authorization using Spring Security.
- Designed scalable REST APIs handling real-time ticket validation and concurrent requests.
- Integrated Razorpay payment gateway and implemented email notifications using SMTP.
- Applied database optimization and layered architecture for performance and maintainability.

AgriTradeHub | Spring Boot, Thymeleaf, MySQL | [GitHub](#)

Sep 2025- Nov 2025

- Developed a farmer-to-buyer marketplace platform with product listing and order management.
- Implemented complete order lifecycle (placement, tracking, delivery updates).
- Built server-side rendered UI using Thymeleaf with dynamic data binding.
- Designed normalized database schema and modular backend using layered architecture.

TECHNICAL EXPERTISE

- **Frontend:** React.js, Thymeleaf, HTML, CSS, JavaScript
- **Backend:** Java, Spring Boot, Spring Security, REST APIs
- **Databases & Tools:** MySQL, Git, Maven, Docker (Basics)
- **Concepts:** OOPS, MVC, JWT, RBAC, API Design, Data Structures & Algorithms, Scalable System Design, RESTful Architecture, Database Optimization, Secure Authentication, Layered Architecture

AWARDS AND ACHIEVEMENTS

- Served as DSA Lead GDG On Campus, BNCET
- Qualified GATE 2025 (AIR 7171)
- [GeeksforGeeks](#): Secured Rank 01 in BNCET | Solved 650+ problems
- [LeetCode](#): Solved over 300+ problems
- [Vision IAS Certificate](#) Top 3 in Pratishpardha
- [SoftPro Internship Certificate](#)
